# Analytical Sociology: Actions and Networks (Wiley Series in Computational and Quantitative Social Science)

**Analytical Sociology: Actions and Networks (Wiley Series in Computational and Quantitative Social Science)**

**Demonstrates the power of the theoretical framework of analytical sociology in explaining a large array of social phenomena**

*Analytical Sociology: Actions and Networks* presents the most advanced theoretical discussion of analytical sociology, along with a unique set of examples on mechanism-based sociology. Leading scholars apply the theoretical principles of analytical sociology to understand how puzzling social and historical phenomena including crime, lynching, witch-hunts, tax behaviours, Web-based social movement and communication, restaurant reputation, job search and careers, social network homophily and instability, cooperation and trust are brought about by complex, multi-layered social mechanisms. The analyses presented in this book rely on a wide range of methods which include qualitative observations, advanced statistical techniques, complex network tools, refined simulation methods and creative experimental protocols. This book ultimately demonstrates that sociology, like any other science, is at its best when it dissects the mechanisms at work by means of rigorous model building and testing.

*Analytical Sociology:*

- Provides the most complete and up-to-date theoretical treatment of analytical sociology.
- Looks at a wide range of complex social phenomena within a single and unitary theoretical framework.
- Explores a variety of advanced methods to build and test theoretical models.
- Examines how both computational modelling and experiments can be used to study the complex relation between norms, networks and social actions.
- Brings together research from leading global experts in the field in order to present a unique set of examples on mechanism-based sociology.

Advanced graduate students and researchers working in sociology, methodology of social sciences, statistics, social networks analysis and computer simulation will benefit from this book.

### **From reader reviews:**

#### **May Chapa:**

Book is written, printed, or descriptive for everything. You can know everything you want by a e-book. Book has a different type. As it is known to us that book is important thing to bring us around the world. Close to that you can your reading skill was fluently. A book Analytical Sociology: Actions and Networks (Wiley Series in Computational and Quantitative Social Science) will make you to always be smarter. You can feel considerably more confidence if you can know about everything. But some of you think that will open or reading the book make you bored. It's not make you fun. Why they could be thought like that? Have you searching for best book or appropriate book with you?

#### **Robert Younger:**

Spent a free a chance to be fun activity to accomplish! A lot of people spent their spare time with their family, or their friends. Usually they undertaking activity like watching television, planning to beach, or picnic inside the park. They actually doing same task every week. Do you feel it? Would you like to something different to fill your current free time/ holiday? May be reading a book is usually option to fill your cost-free time/ holiday. The first thing that you will ask may be what kinds of e-book that you should read. If you want to test look for book, may be the reserve untitled Analytical Sociology: Actions and Networks (Wiley Series in Computational and Quantitative Social Science) can be fine book to read. May be it might be best activity to you.

#### **Chris Walker:**

Do you have something that you enjoy such as book? The publication lovers usually prefer to opt for book like comic, limited story and the biggest the first is novel. Now, why not trying Analytical Sociology: Actions and Networks (Wiley Series in Computational and Quantitative Social Science) that give your pleasure preference will be satisfied by means of reading this book. Reading habit all over the world can be said as the method for people to know world better then how they react toward the world. It can't be mentioned constantly that reading routine only for the geeky person but for all of you who wants to always be success person. So , for all you who want to start looking at as your good habit, it is possible to pick Analytical Sociology: Actions and Networks (Wiley Series in Computational and Quantitative Social Science) become your own starter.

#### **Antonette Schneider:**

Your reading 6th sense will not betray a person, why because this Analytical Sociology: Actions and Networks (Wiley Series in Computational and Quantitative Social Science) guide written by well-known writer who knows well how to make book that may be understand by anyone who also read the book. Written with good manner for you, still dripping wet every ideas and creating skill only for eliminate your personal hunger then you still question Analytical Sociology: Actions and Networks (Wiley Series in

Computational and Quantitative Social Science) as good book not only by the cover but also from the content. This is one publication that can break don't ascertain book by its protect, so do you still needing another sixth sense to pick this particular!? Oh come on your reading sixth sense already said so why you have to listening to one more sixth sense.
