## Mononegaviruses of Veterinary Importance

Mononegavirales is a family of viruses affecting large, small and marine animals. Discussing the pathology and laboratory diagnosis of important viruses, this book covers those strains that cause a significant threat to animals in terms of their severity and epidemiological risk, as well as those which are used as models in the study of infectious disease. Also including viruses with zoonotic potential, this book reviews the literature for Rhinderpest, Rabies, Ebola and more.
