## **A Theory of Natural Philosophy (Classic Reprint)** Ruggero Giuseppe Boscovich

Venetian edition of 1763. This edition was chosen in preference to the first edition of 1758, published at Vienna, because, as stated on the title-page, it was the first edition (revised and enlarged) issued under the personal superintendence of the author. In the English translation, an endeavour has been made to adhere as closely as possible to a literal rendering of the Latin ;except that the somewhat lengthy and complicated sentences have been broken up. This has made necessary slight changes of meaning in several of the connecting words. This will be noted especially with regard to the word adeoque ,which Boscovich uses with a variety of shades of meaning, from indeed ,also or further ,through thus ,to a decided therefore ,which would have been more correctly rendered by ideoque .T here is only one phrase in English that can also take these various shades of meaning, viz., and so ;and this phrase, for the use of which there is some justification in the word adeo itself, has been usually employed. The punctuation of the Latin is that of the author. It is often misleading to a modern reader and even irrational; but to have recast it would have been an onerous task and something characteristic of the author and his century would have been lost. My translation has had the advantage of a revision by Mr. A. O. Prickard, M.A., Fellow of New College, Oxford, whose task has been very onerous, for he has had to watch not only for flaws in the translation, but also for misprints in the Latin. These were necessarily many ;in the first place, there was only one original copy available, kindly loaned to me by the authorities of the Cambridge University Library; and, as this copy could not leave my charge, a type-script had to be prepared from which the compositor worked, thus doubling the chance of error. Secondly, there were a large number of misprints, and even omi  
(Typographical errors above are due to OCR software and don't occur in the book.)
