Legacy of the Elder Gods (Second Journal of the Ancient Ones) M. Don Schorn

'Legacy of the Elder Gods' is the second volume within this continuing series, with each text written as a stand-alone book, allowing the trilogy to be read in any order. This volume presents additional validation of the intriguing Elder Gods theory, with new revelations derived from ancient texts and arcane historic records. This theory contends that otherworldly beings greatly influenced Earth's early development, including an ancient understanding of cosmology that rivals our modern comprehension. New research suggests that extraterrestrial visitors bestowed cultural gifts, vast knowledge, and advanced technology to early human cultures. Uncover their motive to genetically develop our human species, and the purpose behind their ancient guidance and help. Discover how another group of otherworldly visitors ultimately interrupted that mission to civilize Earth, and determine if our modern UFO activity is linked with Ancient Astronauts.
