**Creators and Friends: The Mechanics of Creation (Explorer Race Series, Book 4)** Robert Shapiro  
Humans -- creators in training -- have a purpose and destiny so heartwarming, profoundly glorious that it is almost unbelievable from our present dimensional perspective. Humans are great lightbeings from beyond this creation, gaining experience in dense physicality by slowing down the creative process in order to feel the results and consequences of their decisions and actions. This truth about the great human genetic experiment of the Explorer Race and the mechanics of creation is being revealed for the first time by Zoosh and his friends as humanity begins to awaken to its true nature. Zoosh and a great assortment of beings who have never spoken to the physical plane before -- from particles to All That Is -- speak vibrantly through superchannel Robert Shapiro. Each personality has its own knowing, perception and expertise as it shares its history, its present focus and the awesome truth about humanity's mission. The books read like adventure stories as we follow the clues from this creation we live in out to the Council of Creators and beyond.

As we explore the greater reality beyond our planet, our galaxy, our dimension, our creation, we meet prototypes, designers, shapemakers, creators, creators of creators and friends of our Creator, who explain their roles in this creation and their experiences before and beyond this creation. As our awareness expands about the way creation works, our awareness of who we are expands and we realize that a part of ourselves is in that vast creation -- and that we are much greater and more magnificent than even science fiction had led us to believe. Join us in the adventure of discovery. It's mind-stretching.
