The Beam: Season One (Volume 1)

Sean Platt, Johnny B. Truant

The Beam: Season One (Volume 1) Sean Platt, Johnny B. Truant

When all of humanity is connected, the network's hub is the true seat of power. In the year 2097, the only stable nation is the NAU: a dystopia exploding with new technologies and ruled by two political parties. The choices are Enterprise (sink-or-swim ; effort and luck determine whether members prosper or starve) or Directorate, where members are guaranteed safety but can never rise above their station. **Above it all is The Beam: an AI-built computer network that serves every whim and connects citizens through implants and biological add-ons.** The Beam anticipates every need and has created a world within the world. It permeates everything. It is everywhere. But now the NAU's power is shifting. The Beam seems to be taking on a life of its own as immersion becomes as real as reality itself. New powers are making their moves while others hang in the balance ... and behind it all, a shadowy group is pulling strings. But if the NAU's true power goes unchecked, the actions of a shadowy few will shape the fate of millions for years to come ...
