In response to the Iraqi invasion of Kuwait on the second of August 1990, a small group of air power advocates in the Pentagon proposed a strategic air campaign - "Operation Desert Storm" designed to drive the Iraqi army from Kuwait by a sustained effort against the major sources of Iraqi national power. John Andreas Olsen provides a coherent and comprehensive examination of the origins, evolution and implementation of this campaign. His findings derive from official military and political documentation, interviews with United States Air Force officers who were closely involved with the planning of the campaign and Iraqis with detailed knowledge and experience of the inner workings of the Iraqi regime.
