Recent Advances in Gossamer Spacecraft (Progress in Astronautics and Aeronautics) C. Jenkins

The pace of progress in gossamer technology has been strong since the publication of *Gossamer Spacecraft: Membrane and Inflatable Structures Technology for Space Applications* in 2001. Solar sails are an obvious and public evidence of this trend. But, there have been many other advances as well, in structures, materials, testing, and systems engineering. *Recent Advance in Gossamer Spacecraft* focuses on many of these, either as gossamer technology that was not sufficiently represented in the previous volume, or that has had significant growth and activity in the intervening years. The most accurate and up-to-date information has been assembled, reviewed, and presented by an outstanding group of experts.
