The student's handbook of physical geology A. J Jukes-Browne

This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1892 edition. Excerpt: ...Nepheline-Dolerite (or Nephelenite).--The rocks of this differ from the last in containing nepheline instead of felspar; there is the same want of preciseness in the nomenclature. The coarser varieties are easily recognized; the finer require microscopic examination. The rock, however, is commonly a little lighter in colour than a felspar basalt. (&.) Leucite-Dolerite (or Leucitite).--The rocks of this differ from the felspar-basalts in containing leucite instead of felspar. The rock, as a rule, is decidedly lighter in colour than the others, and the augite is sometimes green. Intermediate forms, containing two or all of the three minerals felspar, nepheline, and leucite, occur. Group F. The nomenclature of this rather rare group is also in need of revision. The great majority of its members are crystalline, and the rock appears to be generally a deep-seated one. Olivine is the essential constituent, and with it enstatite or augite, or both together, are commonly associated. Hornblende occurs occasionally. There is always some iron peroxide, and small quantities of chrome and nickel are generally detected by analysis. Lherzolite³ is 1 The term Anctmcsite has been applied to intermediate varieties. From Lake Lherz in the Pyrenees (Ariege), where the rock. the name given to a species consisting of olivine, enstatite, augite (variety diopside) and picotite (a variety of spinel). Dunite 1 appears to be chiefly olivine and chromic iron. Picrite contains olivine, augite (or hornblende), with usually some mica and often a little felspar. In Picrite the pyroxenic constituent generally rather predominates over the peridotite, and the rock appears to be rather an ancient one. It may be regarded as intermediate between Dolerite and a Peridotite.a Here also...
