Unbinding Medea Heike Bartel

Medea - simply to mention her name conjures up echoes and cross-connections from Antiquity to the present. The vengeful wife, the murderess of her own children, the frail, suicidal heroine, the archetypal Bad Mother, the smitten maiden, the barbarian, the sorceress, the abused victim, the case study for a pathology. For more than two thousand years, she has arrested the eye in paintings, reverberated in opera, called to us from the stage. She demands the most interdisciplinary of study, from ancient art to contemporary law and medicine; she is no more to be bound by any single field of study than by any single take on her character.
