The energy sector and the stagnation of sustainable production process: The functioning of the energy sector and the stagnation hypothesis of sustainable production process Dionisio Alvarez

In a position of technical and economic bankruptcy since late 2002. In recent years the role of this public agency of the federal Government has been that of the sustainability of public finances, when its function should be to meet the current needs of the population, as well as those of future generations, as an institution that could serve as a lever and trigger the development of the country.
