# E-Commerce and Intelligent Methods (Studies in Fuzziness and Soft Computing)

## E-Commerce and Intelligent Methods (Studies in Fuzziness and Soft Computing)

This book covers significant recent developments in the field of Intelligent Methods applied to eCommerce. The Intelligent Methods considered are mainly Soft Computing Methods that include fuzzy sets, rough sets, neural networks, evolutionary computations, probabilistic and evidential reasoning, multivalued logic, and related fields. There is no doubt about the relevance of eCommerce in our daily environments and in the work carried out at many research centers throughout the world. The application of AI to Commerce is growing as fast as the computers and networks are being integrated in all business and commerce aspects. We felt that it was time to sit down and see how was the impact into that field of low-level AI, i.e. softcomputing. We found many scattered contributions disseminated in conferences, workshops, journal, books or even technical reports, but nothing like a common framework that could serve as a basis for further research, comparison or even prototyping for a direct transfer to the industry. We felt then the need to set up a reference point, a book like this. We planned this book as a recompilation of the newest developments of researchers who already made some contribution into the field. The authors were selected based on the originality and quality of their work and its relevance to the field. Authors came from prestigious universities and research centers with different backgrounds.

### **From reader reviews:**

#### **Ezra Talbott:**

Hey guys, do you really want to find a new book to read? Maybe the book with the name E-Commerce and Intelligent Methods (Studies in Fuzziness and Soft Computing) suitable to you? The actual book was written by a well-known writer in this era. The particular book entitled E-Commerce and Intelligent Methods (Studies in Fuzziness and Soft Computing) is the one of several books that will everyone read now. This particular book was inspired a lot of people in the world. When you read this reserve you will enter the new way of measuring that you ever know just before. The author explained their idea in the simple way, therefore all of people can easily be aware of the core of this e-book. This book will give you a wide range of information about this world now. To help you see the represented of the world on this book.

#### **Arielle Griffin:**

The particular book E-Commerce and Intelligent Methods (Studies in Fuzziness and Soft Computing) has a lot of information on it. So when you make sure to read this book you can get a lot of help. The book was compiled by the very famous author. The author makes some research before write this book. That book very easy to read you can obtain the point easily after scanning this book.

#### **Lauren Clarke:**

Are you kind of stressful person, only have 10 or even 15 minute in your day to upgrading your mind proficiency or thinking skill also analytical thinking? Then you have problem with the book in comparison with can satisfy your short period of time to read it because all this time you only find reserve that need more time to be go through. E-Commerce and Intelligent Methods (Studies in Fuzziness and Soft Computing) can be your answer since it can be read by you who have those short free time problems.

#### **Sonia Cote:**

Is it a person who having spare time after that spend it whole day by simply watching television programs or just telling lies on the bed? Do you need something new? This E-Commerce and Intelligent Methods (Studies in Fuzziness and Soft Computing) can be the response, oh how comes? The new book you know. You are thus out of date, spending your spare time by reading in this brand-new era is common not a geek activity. So what these books have than the others?
