Microeconometrics of International Trade (World Scientific Studies in International Economics)

Joachim Wagner

This volume brings together two comprehensive survey studies of the literature on the microeconometrics of international trade. The chapters apply new empirical methods to the analysis of the links between international trade and various dimensions of firm performance such as productivity, profitability, wages, and survival. The studies also include report results for Germany, one of the leading actors on the world markets for goods and services.

Readership: Graduate students and researchers in the fields of econometrics and international economics.
