Aria Valderi is a day walker, a vampire that can walk in the sun. Being a descendant of the original queen of the vampires has its perks, but finding out her mate is a wolf shifter isn't one of them. He's insufferable, bossy, and too damn sexy for his own good. Trevan Stone knows Aria is his. Unfortunately, his tough little vamp has been wreaking all kinds of havoc and now too many people want her dead. It's going to take more than Trevan can do as a shifter to protect his woman. Trevan has a secret. One that could put an end to their future together, but it's not nearly as big as the one her people have, which could end the future of the entire clan. If he can save her from the vampire council that wants her destroyed, there might be a chance for them to work through their issues. But saving her means giving up the reason for his existence, the drive that has pushed him for the last eighty years.
