For undergraduate Mechanics of Materials courses in Mechanical, Civil, and Aerospace Engineering departments.

This package includes MasteringEngineering™.

Thorough coverage, a highly visual presentation, and increased problem solving from an author you trust.

Mechanics of Materials clearly and thoroughly presents the theory and supports the application of essential mechanics of materials principles. Professor Hibbeler's concise writing style, countless examples, and stunning four-color photorealistic art program — all shaped by the comments and suggestions of hundreds of reviewers — help readers visualize and master difficult concepts. The **Tenth Edition** retains the hallmark features synonymous with the Hibbeler franchise, but has been enhanced with the most current information, a fresh new layout, added problem solving, and increased flexibility in the way topics are covered.

Personalize learning with MasteringEngineering.

MasteringEngineering is an online homework, tutorial, and assessment program designed to work with this text to engage students and improve results. Interactive, self-paced tutorials provide individualized coaching to help students stay on track. With a wide range of activities available, students can actively learn, understand, and retain even the most difficult concepts. The text and MasteringEngineering work together to guide students through engineering concepts with a multi-step approach to problems.
