TWO ANTITHETICAL CONTENTIONS OF VANITY, PUNNING Volterra

Human nature is very limited, whatever "clinical" psychologists claim. This very short treatise about the whole of the human mind is about as long as it takes to expound psychology. Example, women sadly remain women psychologically, whether in burqa-land or bikini-land. It has been documented women are fonder of money than sex, that equator. Abstract art is just splotches of paint as banal as flowers, naked women painted in earlier centuries-times. Capitalism: Michael Jordan when famous endorsed an underwear brand, those "literary" anthologies. Interesting surface, many painters can do that, but drama, only Tiziano (Titian). The conservative rag Volterra refers to is probably correctly "National Review" and the occasion de Kooning's death, who was there approved over Tiziano, compared to whom Rembrandt even is not a dramatist of a painter. Women claim equality with men without having anything to prove for it except vanity. I regret to spoil retiring plans; only twenty or thirty can go to paradise.
