**Growing one's own cannabis is a growing trend, but one that has been taking place for decades.**

**Growing it organically is the direction most home grown gardeners are now headed. Written by one of the leading experts on organic gardening, this will become the definitive guide for growing high grade and organic cannabis.**

Organic Cannabis shows amateur growers how to raise a righteous crop of top-quality cannabis without chemicals that can spoil its flavor and diminish its potency, damage the environment, and add costs to the process. Novices will get simple, step-by-step instructions on everything from choosing a variety to grow to curing after harvest. Readers with more experience will pick up invaluable tips and tricks that will help them increase yields and solve common problems. Includes information on both indoor and outdoor cultivation.
