Occasus Carla Richards

In the middle of avenging his murdered family, Dominic is kidnapped to another planet far in the future where childbirth kills every new mother. Fighting to get back to Earth, he has to choose between his revenge and the future of humanity. Far in our future, living on a planet that doesn't turn, humans are forced by excessive sun on one side and frozen temperatures on the other, to live in a maze of underground caves and tunnels. The planet is plagued with a mysterious certainty – childbirth kills every new mother. With their population in dramatic decline, the only option they have is to kidnap people from Earth's past, which is why Dominic, who has his own dark past, is pulled into this strange world of psychically connected doppelgangers, cowboy outfitted rebels and baby making factories masquerading as luxury hotels. While he fights his way to get back to Earth and his own time, he learns the true lengths the government will go to fix their population's decline and how far he'll go to stop them.
