Palliative Medicine: A case-based manual

Neil MacDonald, Doreen Oneschuk, Neil Hagen

Palliative Medicine: A case-based manual Neil MacDonald, Doreen Oneschuk, Neil Hagen

Palliative care is now an integral part of the undergraduate medical curriculum. Medical education across the board is adopting a case-based approach. This book uses a series of cases to illustrate critical points in palliative medicine. The case-studies have been carefully chosen to reflect real life clinical practice. The contributors illustrate, through the case studies, the desired skills, attitudes, and knowledge required in this field of medicine.

Since publication of the second edition, many approaches to palliative care have been further refined and developed. Ongoing research has led to the improved use of existing medications, and the development of several new treatments. More is known about the psychosocial existential distress experienced by patients and their families resulting in an improved understanding by health care providers of how best to approach and assist those affected by advanced illness, and more is known about methadone and other medications with emerging uses.

The third edition of this highly popular book continues to offer a panoramic view of palliative care. It introduces a number of new topics including Neurological Disorders, The Last Days, and Palliative Sedation.

From reader reviews:

Maxine Lucas:

As people who live in typically the modest era should be upgrade about what going on or information even knowledge to make them keep up with the era which is always change and make progress. Some of you maybe may update themselves by looking at books. It is a good choice in your case but the problems coming to anyone is you don't know which you should start with. This Palliative Medicine: A case-based manual is our recommendation to help you keep up with the world. Why, because this book serves what you want and wish in this era.

Tracey Egan:

Information is provisions for folks to get better life, information nowadays can get by anyone on everywhere. The information can be a know-how or any news even a problem. What people must be consider when those information which is inside former life are difficult to be find than now could be taking seriously which one works to believe or which one the resource are convinced. If you get the unstable resource then you get it as your main information you will see huge disadvantage for you. All of those possibilities will not happen within you if you take Palliative Medicine: A case-based manual as the daily resource information.

Clyde Miller:

The actual book Palliative Medicine: A case-based manual will bring that you the new experience of reading a book. The author style to describe the idea is very unique. When you try to find new book to learn, this book very suitable to you. The book Palliative Medicine: A case-based manual is much recommended to you you just read. You can also get the e-book from official web site, so you can quickly to read the book.

Joshua Poulson:

Reading a e-book tends to be new life style with this era globalization. With studying you can get a lot of information that can give you benefit in your life. Together with book everyone in this world can easily share their idea. Ebooks can also inspire a lot of people. A lot of author can inspire their own reader with their story or maybe their experience. Not only situation that share in the publications. But also they write about the data about something that you need instance. How to get the good score toefl, or how to teach your sons or daughters, there are many kinds of book which exist now. The authors on earth always try to improve their talent in writing, they also doing some investigation before they write to the book. One of them is this Palliative Medicine: A case-based manual.
