The scriptural evidence that God has been carrying out a plan to bring about unfettered fellowship with mankind is overwhelming. The key to understanding the plan is found in a conjoint understanding of covenant. Beyond the human players and the biblical ritual itself, the determination and character of the Creator begins to surface as one delves into the subject. The bible is replete with the language of covenant, and at the heart of creation it had its place. You will gain understanding of difficult passages and develop a deeper appreciation of others that before seemed to invite only a quick read. It would be presumptuous to suggest that the reader will come away with a 20/20 "God's eye view" of man's redemption, but it would be accurate to say that through the eyes of covenant several steps toward that end will have been taken.
