Optical Detectors for Astronomy: Proceedings of an ESO CCD Workshop held in Garching, Germany, October 8-10, 1996 (Astrophysics and Space Science Library)

The Workshop "Optical Detectors for Astronomy" was held during October 8-10, 1996 at the headquarters of the European Southern Observatory in Garching, Germany. This was the third meeting of its kind, previous meetings being held in 1991 and 1993, but this is the first ESO "CCD Workshop" that has published proceedings. Most of the leading manufacturers and major astronomical observatories were represented, with the 117 attendees coming together from 14 different countries that spanned every continent on Earth. The motivation for the ESO CCD Workshop series is the creation of informal and open venue of information exchange about astronomical CCD detectors and systems. Judging from the reaction and feedback of the participants, the 1996 workshop was as successful as the previous editions, which is a credit to all who attended. The Workshop was organized as a mixture of invited talks, oral presentations, poster sessions and roundtable discussions, the latter used to foster a free exchange of ideas among participants. These technical sessions were complemented by an opening reception and a congenial evening in downtown Munich, which included a walking tour of the historic area followed by dinner at the famous Franziskaner brewery and an after dinner talk by Walter Kosonocky, who reviewed the history of CCD technology.

From reader reviews:

Barbara Figueroa:

Have you spare time for just a day? What do you do when you have far more or little spare time? Yep, you can choose the suitable activity regarding spend your time. Any person spent all their spare time to take a walk, shopping, or went to the actual Mall. How about open or read a book titled Optical Detectors for Astronomy: Proceedings of an ESO CCD Workshop held in Garching, Germany, October 8-10, 1996 (Astrophysics and Space Science Library)? Maybe it is to be best activity for you. You recognize beside you can spend your time along with your favorite's book, you can more intelligent than before. Do you agree with its opinion or you have different opinion?

Marylou Arroyo:

What do you think about book? It is just for students since they're still students or this for all people in the world, exactly what the best subject for that? Simply you can be answered for that issue above. Every person has diverse personality and hobby for each and every other. Don't to be obligated someone or something that they don't want do that. You must know how great and important the book Optical Detectors for Astronomy: Proceedings of an ESO CCD Workshop held in Garching, Germany, October 8-10, 1996 (Astrophysics and Space Science Library). All type of book are you able to see on many options. You can look for the internet sources or other social media.

Fred Scott:

The book Optical Detectors for Astronomy: Proceedings of an ESO CCD Workshop held in Garching, Germany, October 8-10, 1996 (Astrophysics and Space Science Library) will bring you to definitely the new experience of reading a book. The author style to describe the idea is very unique. Should you try to find new book you just read, this book very acceptable to you. The book Optical Detectors for Astronomy: Proceedings of an ESO CCD Workshop held in Garching, Germany, October 8-10, 1996 (Astrophysics and Space Science Library) is much recommended to you to study. You can also get the e-book in the official web site, so you can more readily to read the book.

Michael Robinson:

Are you kind of occupied person, only have 10 or perhaps 15 minute in your moment to upgrading your mind expertise or thinking skill actually analytical thinking? Then you are receiving problem with the book than can satisfy your short time to read it because pretty much everything time you only find reserve that need more time to be study. Optical Detectors for Astronomy: Proceedings of an ESO CCD Workshop held in Garching, Germany, October 8-10, 1996 (Astrophysics and Space Science Library) can be your answer since it can be read by anyone who have those short free time problems.
