*The Labor Progress Handbook: Early Interventions to Prevent and Treat Dystocia* is an unparalleled resource on simple, non-invasive interventions to prevent or treat difficult or prolonged labor. Thoroughly updated and highly illustrated, the book shows how to tailor one’s care to the suspected etiology of the problem, using the least complex interventions first, followed by more complex interventions if necessary.

This new edition now includes a new chapter on reducing dystocia in labors with epidurals, new material on the microbiome, as well as information on new counselling approaches specially designed for midwives to assist those who have had traumatic childbirths.
