## **The War on Gold** Antony C. Sutton

The War on Gold is a definitive study of the past, present, and future of the metal that Keynesian economists and political schemers have denounced as a barbarous relic. The war on gold began several centuries ago, when politicians discovered they could print limitless amounts of paper currency for a small fraction of the cost of using gold as money. It has accelerated in recent years...as the U.S. acquired paper debt, deficits, which led to double-dip inflation, and internationalists plotted to create a new world order.
